TRUST THE PROCESS

BUILDING A SOCIAL MEDIA FOLLOWING IS A PROCESS.

Social media doesn't produce immediate, huge results, but a slow and continual build up of dedicated followers that eventually convert to customers (sales).

Think of social media like a TV commercial. Commercials play over and over and that's the point of it. They are there to remind you that the product/service is there. Your social media posts will work the same way. They remind your customers of your product, even if the post isn't specifically selling your product.

Not every post should be "selling" something. You have to build trust & interest in your followers before they will be willing to buy.
